

How to Measure Your Ring Size at Home

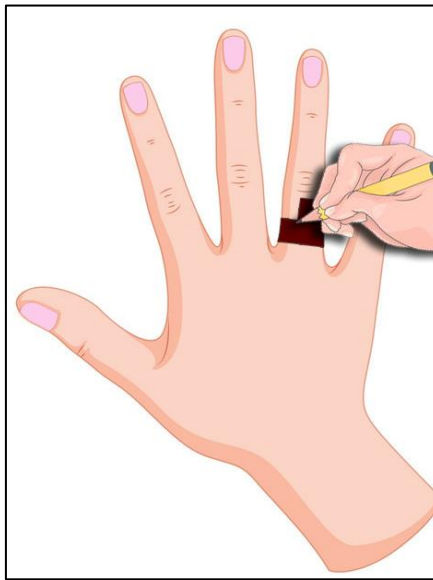

Please note this is only a guide and we advise all customers to visit one of our branches or any jewellery store near you to get an accurate measurement of your ring size. Resizing charges will apply if measurement provided is incorrect. We follow standard US sizing.

Sizes vary on different designs. Rings with wider/thicker bands will fit a bit tighter. Consider going up a size when buying a wide design ring.

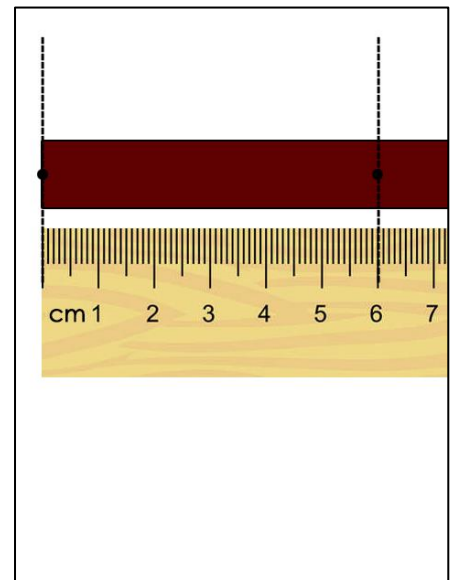

Measure without a Ring

Wrap a tape or a piece of paper around the finger wearing the ring

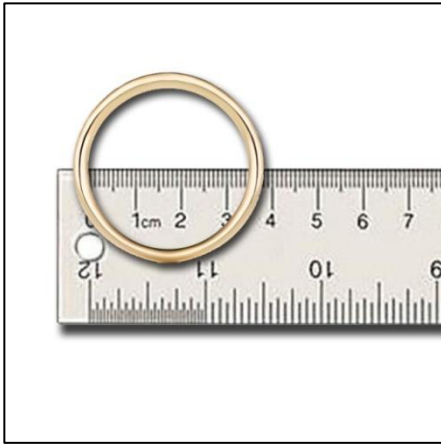

Mark the area where the two ends meet, make sure the tape comfortable tight around the finger when marking

Measure the tape or paper with ruler

Make sure you are measuring the finger you intend to wear the ring on. Alternatively, you use a tape measure directly on your finger. Refer to size chart below for your size.

Always refer to the ***Centimeter/Millimeter*** side because it is the most accurate on rings.

Measure with a Ring

Put the ring on a ruler (centimeter side). Make sure it sits from 0 and that you are measuring the inside diameter not the outside. Refer to size chart below for your size.

SIZE CHART

US SIZE	INSIDE DIAMETER (mm)	INSIDE CIRCUMFERENCE (mm)
3	14.07	44.2
3½	14.48	45.5
4	14.88	46.8
4½	15.29	48
4¾	15.49	49
5¼	15.9	50
5¾	16.31	52
6¼	16.71	53
6¾	17.12	54
7¼	17.53	55.6
7¾	17.93	57
8¼	18.34	58
8¾	18.75	59
9¼	19.15	60.2
9¾	19.56	62
10¼	19.96	63
10¾	20.37	64
11¼	20.78	65.3
11¾	21.18	66.6
12¼	21.59	67.8
