

Size Guide

MEASURING YOUR RING SIZE

STEP 1

Save the photo below (Size Chart) and print out at 100%.

Using a ruler, ensure the line in the bottom of the photo measures exactly 135mm.

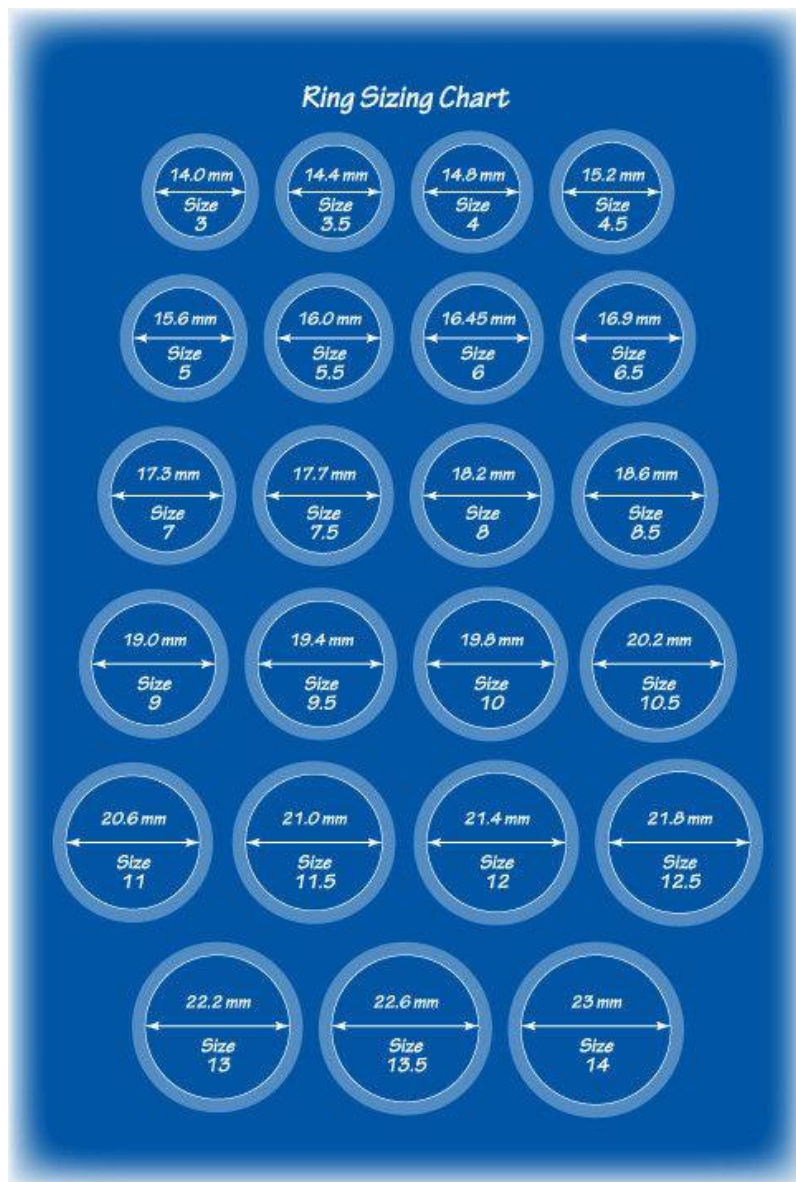

STEP 2

Find an existing ring that is a comfortable fit on your finger and that doesn't slide-off.

Place the ring on your printed size chart.

Place the ring so that the black circle is exactly touching the inside of the ring.

Sizes on the Ring Guide are US sizes while measurements are in millimeters.
